

DAVID WEINER DESIGN has been creating innovative and award-winning lighting designs for a diverse range of projects since their founding in 1992.

We have designed numerous award-winning restaurants, museum spaces, music festival environments and other architectural environments for clients in New York City and across the United States.

Additionally, our work in the American theater has been seen in over a dozen Broadway productions, 100 plus Off-Broadway and regional productions, and at Disney's California Adventure Park.

We believe that every project has a specific story to tell. It is our mission to tell that story through the dynamic and creative use of light in space and through time.
